WINTER 1985

ARBOR DAY - Neighborhood Style:

On Saturday morning, January 26, from 9 a.m. until noon, your neighborhood association will be sponsoring our annual Arbor Day in our park. We will be planting dogwoods and redbuds, landscaping a new area in front of the Scout House with flowering shrubs (provided by your neighbors, Donna Legare and Jody Walthall, owners of Native Nurseries), and finishing our clean-up of the totlot.

To this end we hope you have all noticed by now the new windows in the Scout House and the repainted equipment in the totlot. Looks fine, doesn't it! Your neighborhood association worked long and hard to obtain these results; now it's time for you to help. Please join us on Saturday, January 26, if only for an hour or so. Bring shovels, rakes, hoes, wheelbarrows, and gloves. We'll provide the coffee and doughnuts.

If you have potted azaleas or already dug daylilies and would like to donate them to this effort, please call Dale Allen at 877-9159 as soon as possible. (NOTE: We are also looking for one or two good neighbors who like to garden and would be willing to spend several hours each month helping to prune, fertilize and care for the plants in the park. Call Dale Allen if you are interested.)

ARBOR DAY 1985 - Saturday, February 9

Neighborhoods around the city have been asked to participate in this year's Arbor Day by providing at least ten people to plant a section of Apalachee Parkway. Let's provide an impressive showing from Indianhead-Lehigh, a neighborhood known for its love of trees.

Meet: 8:30 at the Scout House. Bring shovels.

9:00 We will go to a designated spot.

After a two and a half hour planting there will be a dedication with free lunch and entertainment.

Call Kenan Fishburne at 877-4914 if you have questions. Otherwise we'll see you at 8:30, February 9th at the Scout House.

THIRD ANNUAL NEIGHBORHOOD FLEA MARKET

Start saving up those great garage sale items for our neighborhood flea market to be held in April at the Scout House field. Tables will be available and great advertising should insure the success we had last year. Check the next newsletter for specific information.

Myrtle Drive

In response to complaints from residents of Myrtle Drive, the City Traffic Engineering Department is proposing to close access to the one-lane, tree lined road at its juncture with Doris Drive. The road is not properly designed to safely handle the present traffic load (nearly 500 cars per day) and cannot be widened. Anyone who wishes to be heard on this proposal should call Traffic Engineer Buddy Holshowser at 599-8261 or Gail Vanderbrink at the Community liaison office, 599-8533.

A Joyful Noise

The Association wishes to thank everyone who joined in the Christmas caroling this year. More than forty neighbors came out on Sunday evening to make this the best caroling ever. So well did it go, that our band of merry carolers continued singing a half hour longer than we had planned. Afterwards, we all returned to the Scout House for some homemade treats and warm apple cider, and, of course, good old-fashioned socializing. I'm sure for all who participated it was truly a high point in their season's festivities.
